

Finamac

The Finest Automated Machines

Turbo 25

Turbo 25 Popsicle Producer
- Production of 750 to 900 popsicles per hour

Advantages

- Quick temperature recovery;
- Fiberglass tank, better thermal isolation and corrosion resistance;
- Automatic dash, whirlpool agitation.
- Hermetic compressor, with less noise and larger electrical power saving;
- Small, efficient and noiseless.
- Capacity for 10 molds with 28 popsicles.

Technical Data

Consumption of electricity: 3,8 - 4,5 kW
Electrical Installation: 220 V - 380 V, Monophase -
Triphase, 50/60 Hz
Equipment Dimensions (LWH):
746mm x 1245mm x 1309 mm
Net Weight: 170 kg
Condensation: Water - Air

**The announced production depends on climatic conditions and installation of the places where the machine is located*
